FULLSTACK DEVELOPER

Education

(2022-2025) BSc in Information System

Bahir Dar University

I pursued a Bachelor's degree in Information System at Bahir Dar University, where I am immersed myself in the dynamic world of technology and information management.

Experience

Fullstack Developer

Freelance

Oct 2024 - Present

Developing and maintaining responsive web applications using React and TypeScript. Implementing UI components and integrating with backend APIs.

Web Developer Intern

ICT4D Research Center

Jul 2024 - Sep 2024

Developed and debugged web applications as part of a collaborative team. Utilized HTML, CSS, JavaScript, and PHP to build responsive interfaces.

Project Leader

Final Year Project

Feb 2025 - May 2025

Lead the development and debugging of web applications. Oversaw a team working with MERN stack to ensure high-quality, efficient solutions.

Projects

AI-assisted complaint management system

Developed a web platform with AI-based complaint categorization.

Telemedicine System

Created a web platform that assists patients in consulting with doctors online.
