ABOUT ME

I am Sisay Negash, a Software Engineer with a Bachelor's and Master's in Software Engineering from Bahir Dar University. I specialize in machine learning, AI, and deep learning, an XAI.

WORK EXPERIENCE

Wollo University

City: Kombolicha | **Country:** Ethiopia

[21 Feb 2020 – 30 Nov 2020]

Senior Technical Assistant

As a Senior Technical Assistant, I provided technical support, managed systems, led upgrades, trained users, researched new technologies, and ensured data security.

Dire Dawa University

City: Dire Dawa | **Country:** Ethiopia

[9 Nov 2020 – Current]

Lecturer

As a Lecturer of Software Engineering, I have taught core subjects, developed curricula, mentored students, conducted research, contributed to committees, maintained industry connections, and engaged in continuous professional development, and I continue to do so.

EDUCATION AND TRAINING

[12 Sep 2014 – 15 Jul 2019]

Bachelor of Science Degree in Software Engineering

Bahir Dar University

Address: Bahir Dar, Bahir Dar, Ethiopia | **Field(s) of study:** Software Engineering | **Final grade:** 3.70 | **Thesis:** Pick and place Robotic Arm controlled by using wireless Application , with project Result A+

[11 Sep 2022 – 30 Jul 2024]

Master of Science Degree in Software Engineering

Bahir Dar University <https://www.bdu.edu.et/>

City: Bahir Dar | **Country:** Ethiopia | **Field(s) of study:** software Engineering | **Final grade:** 3.56 With a thesis result: Excellent | **Thesis:** Developing Explainable AI-Based Prototype for Detection of Fetal Abnormalities

LANGUAGE SKILLS

Mother tongue(s): Amharic

Other language(s):

English

LISTENING C1 READING C1 WRITING C1

SPOKEN PRODUCTION C1 SPOKEN INTERACTION C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

web development

html | CSS | Javascript(Nodejs, ExpressJs) | bootstrap

Framework

laravel | Django | flask

Data Collection, Visualizations and Analysis

Tableau | Power Query ,Power BI

Software Development and Testing

Software Developement | Software testing

Database

MySQL | SQL

Programming

Python | java | C++ | php

PROJECTS

[1 Jan 2024 – Current]

Django Based Fetal anomalies Detection using explainability AI

The Django-based XAI model for fetal detection predicts anomalies using machine learning and provides explainable insights through SHAP and LIME. Users input data via a form, generating predictions with visual explanations for better understanding by healthcare providers and patients.

[10 Sep 2023 – 13 Sep 2024]

Diabetes Prediction System using Machine Learning

A **Diabetes Prediction System using Machine Learning (ML)** is designed to predict the likelihood of a person developing diabetes based on various health metrics.

Link: https://github.com/SisayNegashMengistu/Diabetes_Prediction_system_using_ML

[21 Oct 2018 – 19 Jul 2019]

Wireless Robotic arm controlled by Android Application

In this project, I used Arduino to control a robotic arm and developed a wireless Android app in Java, enabling object manipulation in diverse environments. My efforts earned me certificates from the Computing Faculty and Bahir Dar University, the Best Project of the Year award (2018/2019), and second place at an international conference.
